

# Certificate of Authenticity

The solid bronze sculpture \_\_\_\_\_ (name and title)  
was cast by the "lost wax" process, a process over 2000 years old  
using superior bronze, an alloy containing at least 85% copper.

The sculpted cast bronze sculpture was created, cast to bronze and  
patinated by the artist and sculptor, Hans Holtkamp.

HOLT KAMP Fine Art Bronze certifies that this work is an  
authentic cast bronze sculpture created by Hans Holtkamp.
